OBJEECTIVE

Fourth-year BSIT student seeking an IT-related internship to apply and further develop technical skills in **programming, software development, IT support, software tools and IT systems**. Highly motivated to gain practical experience, contribute to projects, and support a technology team in a professional environment.

EDUCATION

PHINMA – Araullo University

Bachelor of Science in Information Technology, Major in System Development

• Dean's List	April 2023
• HK Scholar	August 2022-Present

Relevant Courses: Computer Programming 1 & 2, Data Structures and Algorithms, Object-Oriented Programming, Web Systems and Technologies, Advanced Database Systems, Cloud Programming, Game Development, Systems Integration and Architecture

TECHNICAL SKILLS

- **Programming & Web Development:** HTML, CSS, JavaScript, TypeScript, PHP, Laravel, Node.js, React, MySQL, MongoDB
- **Software & Tools**: XAMPP, Git/GitHub, VS Code, Microsoft Office, Photoshop, Canva

EXPERIENCE PROJECTS

SYA Trucking Services Fleet Management and Tracking System | PHP, MySQL, React
- Developed a role-based web application to streamline trucking operations for Admins, Operations Managers, and Drivers.
- Implemented real-time GPS tracking, trip and fuel management, and QR-based shipment tracking.
- Built dashboards, analytics modules for fuel and profit, profile/account management, and help/support features, improving operational efficiency and decision-making.

Sharapee Food Delivery | MERN Stack
- Developed a full-stack food delivery platform using React.js, Node.js, Express, and MongoDB.
- Learned how to connect front-end and back-end components for basic order management and tracking features.
- Explored responsive design, user interface basics, and integrating a mock payment system for practice.

Other Projects | Various Technologies
- Built a basic Inventory Management System for our small business to track stock and transactions.
- Developed a basic Task Management to organize and prioritize tasks efficiently.

CERTIFICATIONS AND SEMINARS

October 2025 – Oracle Cloud Database Services 2025 Certified Professional
October 2025 – Innovate{IT}: Mobile Application Using Ionic Framework and Vue.js
October 2025 – From Data to Discovery: Research Pathways in Information Technology
September 2025 – Oracle Analytics Cloud 2025 Certified Professional
January 2025 – AWS Academy Graduate – Cloud Developing
December 2024 – AWS Academy Graduate – Cloud Architecting
November 2024 – NCII in Computer System Servicing
May 2024 – AWS Academy Graduate – Cloud Foundations
September 2023 – Database Foundations – Oracle Academy
